

# Measuring Your Door

Exit Security has developed this guide to assist you in measuring your door correctly so that we may deliver to you a product that will function properly. Round your measurements to the nearest inch.

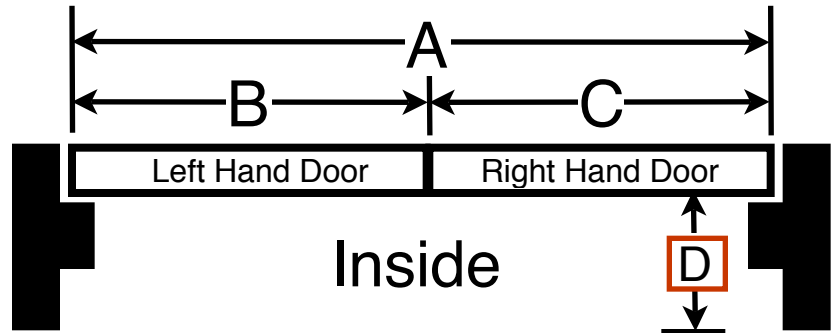

## OUTSWING DOORS

### SINGLE

**Notes:** Measure the width of the door itself (A)  
 Measure the depth from the door to the face of the frame (D). **If "D" is more than 5 inches, use Extra Long "L" Bolts.**

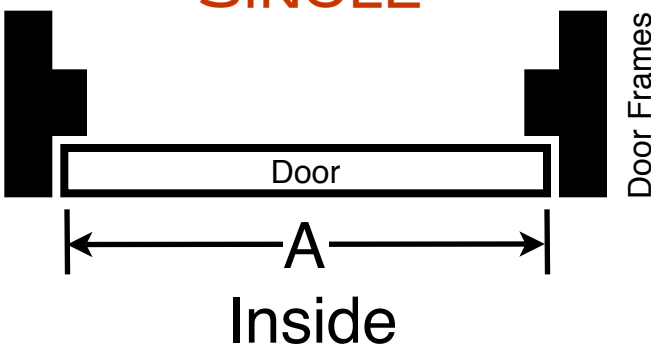

### DOUBLE

**Notes:** Measure the width of both doors (A)  
 Measure the individual door widths (B & C)  
 Measure the depth from the door to the face of the frame (D).  
**If "D" is more than 5 inches, use Extra Long "L" Bolts.**

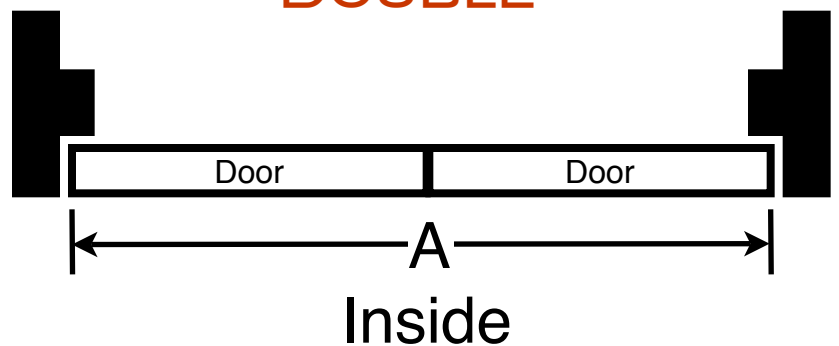

## INSWING DOORS

### SINGLE

**Notes:** Measure the width of the door itself (A)

### DOUBLE

**Notes:** Measure the width of both doors (A)
